S. A. D. 44 DIRECTORS SAY '69 PRELIMINARY BUDGET 'TOO HIGH'

Meeting at Telstar Regional High School Monday night, the directors of School Administrative District 44 took a look at the first draft of the 1969 operational budget and sent it back to administrators for reductions.

The board of directors voted 10 to 2 to limit the gross budget to \$1.24 million—about 20 per cent higher than the gross total passed in 1968.

Supt. Ralph K. Ryder earlier had distributed a 12-account proposal calling for \$1,398,619. About \$770,000 of the proposal was slated to be raised locally. In 1968 the five towns in the District raised \$400,000.

Board member Lester Bickford of Greenwood made the motion to "set a goal" at \$1.24 million. He said the figure would amount to about a 33 per cent increase in the amount to be raised locally, or about \$614,000.

Mr. Bickford said he settled on the figure as a compromise, indicating he thought the initial gross budget was too high, but the district needed more funds in several accounts.

Director Richard Melville of Greenwood said he thought the board was "only kidding ourselves" to think the school system could be operated for \$1.24 million. Mr. Melville was one of two voting against the "goal". He felt the original \$1.39 was more realistic.

Mr. Ryder said he had previously sent figures back to Telstar High School Principal Richard Vaughan and Elementary Supervisor Roger Spugnardi requesting cuts in their proposals.

When asked by Director James Fiske of Bethel if the \$1.39 million proposal was his recommendation, Mr. Ryder said it was not. He indicated he was willing to attempt running the system with the amount set by the school board.

"If you say the taxpayers will only take a 20 per cent increase, that makes my job that much easier," he said. "We can cut some programs. But I think you have to keep in mind the education of the children as well as the money."

The two biggest budget items on the original list of accounts were a jump from \$588,000 to \$632,000 for instruction, and an increase from \$5,500 last year to \$142,000 in 1969 for the school system's debt service.

Instruction covers teachers salaries as well as textbooks and supplies. The debt service account increased because the district has started paying for its new high school.

Other areas of increase were transportation, from \$88,000 to \$122,000; operation of plants, from \$69,800 to \$105,400; and food service, from \$7,000 to \$64,700.

Accounts which showed substantial drops this year were outgoing transfer (tuition), from \$102,700 down to \$1,700; and capital outlay, from \$98,317 to \$38,284.

The directors did not indicate which accounts they felt should be cut, but Mr. Ryder is expected to trim \$158,000 from the original amount and return with new figures next week. It was reported Wednesday that cuts would probably be made in "hot lunch" figures and athletic programs, as well as a reduction in capital improvements.

The District's 1969 income will increase to \$628,300 from \$601,900 of last year. While the S.A.D.'s state general purpose subsidy dropped some \$19,000, income from the Bingham Associates Trust jumped from \$14,000 last year to \$51,300 in 1969.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

The selectmen appointed Leslie Smith to the Budget Committee to fill the unexpired term of Lawrence Brown. Robert Stearns was appointed as an Associate Member of the Planning Board for two years to complete the unexpired term of Charles Heywood.

We were notified the Water Improvement Commission has changed the date we must have our sewage disposal plant in operation. Previously the completion date was 1976, now it must be in operation by October of 1973.

It was expected a budget would be ready this week to present to the Budget Committee, but the flu has prevented me from working since last Friday.

As the snow continues the problem of where to dispose of it becomes more acute. The area in back of the Town Garage is filling up much too fast.

Repair parts are hard to find this winter. We have one truck that is out of commission for the need of rear-end parts. It has been over a week and we still do not have them.

TOTAL REVALUATION RECOMMENDED BY PLANNING BOARD

—To Discuss Zoning Feb. 6
—Public Meeting on Building Code Feb. 13

The Bethel Planning Board met on Thursday, Jan. 2, at the Selectmen's Office. Members attending were Frank Lowell, Wilbur Myers, Mrs. Ruth Ames, Mrs. Pat Hudson, and Associate Members, Carroll Valentine and Robert Stearns.

The board continued its discussion of the budget and the comprehensive plan. It was decided to recommend that the selectmen consider raising the money for complete revaluation of the town in 1969. The feeling of the board was that when the town was last revalued, the valuation on all property was not changed. Businesses, industries, and residences were changed, but land values remained the same.

The board set Thursday evening, Feb. 13, at 7:30 p. m. as the date and time for a public hearing on the proposed Building Code for Bethel. The board has been studying the Model Building Code published by the Maine Municipal Association; this code has been changed to better meet the needs of Bethel. It is being printed and copies will be available at the Town Office and at the hearing for any interested citizens.

The next meeting of the Planning Board will be on Thursday, Feb. 6, at 7:30 p. m. at the Selectmen's Office. The subject of the meeting will be a discussion of the Zoning Ordinance accepted by the town on Sept. 6, 1958. This is NOT the ordinance prepared for the town by the Savall Co., but is the ordinance in effect from Sept. of 1958 through March of 1967. Any interested citizens are welcome to attend this meeting; copies of this zoning ordinance are available at the Town Office.

SUNDAY RIVER

Mrs. R. M. Fleet, Corres.

Dr. Hudson was in town Saturday.

The Ernest Verrills were supper guests of the Bryce Yates recently.

Mr. and Mrs. R. M. Fleet joined with Mrs. Julia Daye and had the cold that has been traveling the neighborhood this week.

This cold weather and snow has kept the garagemen on the go starting cars as many as six one day.

There have been many guests at the Sunday River Inn the last couple of weeks.

The Cushman bakery truck was here Friday after missing a couple of trips.

Mr. and Mrs. Ernest Verrill and children returned to Concord, Mass., Sunday afternoon.

Well after counting several times we have come up with the following numbers of birds at our feeder: About 20 chickadees, four nuthatches, three pair of downy woodpeckers, three or four pair of hairy woodpeckers, and all together too many blue-jays as they cheat the small birds out of food. There were between 25 and 30 of the jays. There has been one swamp sparrow and two juncos for a while. A small flock of snow buntings also gold finch. Not coming to our feeders are a pair of large hawks, four crows, a couple of partridge, and one noisy owl. There is a flock of cross bills and evening or pine grosbeaks in the neighborhood.

Mr. and Mrs. Ernest Verrill and children returned to Concord, Mass., Sunday afternoon.

Time To Spare

By GERALD ANDREWS - Retirement Adviser

You and Your Lawyer

All of us need the services of a lawyer at some point in our lives—and one of the most important of these times is when we retire.

How we handle our affairs is apt to have a great deal to do with our enjoyment of the years ahead.

Usually there are a number of hard decisions to make. Whether to sell the family mansion and move to a cottage. How to arrange income to best advantage. Should insurance policies be revised? And what about a will?

Inevitably you'll be consulting experts in these matters, and somewhere along the line you're sure to need a lawyer.

So if you don't already have a good lawyer, or if you've decided to move to a new part of the country, it's only sensible to think about finding one.

The best way to do this is not to pick up the phone book and choose a name at random. There are institutions such as your State Bar Association; the Lawyer's Referral Service or the Legal Aid Society, all of which can give you advice. Your banker is

another possible source of information. So is your labor union or alumni association.

Once you've found your lawyer, give him your confidence. If you don't, you'll get less than the service you need. With the best will in the world he can't operate successfully unless he knows all the facts.

Whatever you tell him is privileged under the law, and he cannot be forced to disclose this information to anyone. No honest lawyer would ever do so.

Look upon your lawyer as you do your doctor. You wouldn't dream of telling your doctor how to take out your appendix. So when your lawyer is presenting a case on your behalf, follow his advice. He knows what he's doing and after all that's what you're paying him for.

If you want a concise discussion of aspects of the law that are likely to concern you as a senior citizen, Harvest Years Magazine puts out a useful report on the subject. You can obtain a copy by sending your name, address and 50 cents to Law, Harvest Years Publishing Co., 104 East 40th Street, New York, N.Y. 10016.

AWARDED SILVER STAR SECOND TIME — U. S. Air Force Captain Richard L. Grover, son of Mrs. Ella A. Grover, of Bethel, is decorated at Langley AFB, Va., with his second award of the Silver Star by General William W. Momyer, commander, Tactical Air Command (TAC). Captain Grover was cited for heroism as an electronics warfare officer on an F-105 Thunderchief mission over North Vietnam on Oct. 23, 1967. Despite heavy antiaircraft fire, attacks by MIG fighters, the captain successfully guided the lead aircraft on the mission to suppress surface-to-air missile launches against a force striking a vital railroad and highway bridge near Hanoi. Captain Grover's accurate information enabled the flight to render the deadly missile defenses ineffective. He is now an electronics warfare officer with TAC headquarters at Langley. The captain, a graduate of Gould Academy in Bethel, attended Northeastern University in Boston and entered the Air Force in 1959. He was commissioned in 1960 through the aviation cadet program. Captain Grover's wife, Mary, is the

daughter of Mr. and Mrs. Arthur D. Waddell, Frankfort, Ind.

JOINS ARMY — Miss Betty Ann Fuller, daughter of Mr. and Mrs. Harold Fuller of Bethel, has joined the U. S. Army. She left Saturday, Jan. 5, and will be stationed at the U. S. WAC Center, Ft. McClellan, Ala., for her basic training. Betty Ann graduated from Gould Academy in the class of 1968. Prior to entering the service she did waitress work at Harvey's Restaurant and at the New Yorker.

TELSTAR R. H. S. NEWS

GUIDANCE DEPARTMENT
The Guidance Department is in the process of making contacts with a list of prospective employers, local as well as out of town who would employ Telstar students next summer. Any employers who are interested in local high school students should make their needs known at the Guidance Department by contacting Mr. Glazier.

At the current time there are requests for several boys who are over 18 years of age to work part time during the current school year. Any students interested should contact Mr. Glazier.

On Friday morning, January 10, Mr. Good representing Husson College in Bangor will visit the Guidance Department to interview interested students.

On Tuesday, January 14, the following college and vocational school representatives will talk with interested students in the Guidance office: David Stinson representing New Hampshire College of Accounting and Commerce; a representa-

tive of RETS Electronic Schools of Boston; and Mr. Ed. Beaulieu representing Bryant and Stratton of Boston.

Aroostook State College of Presque Isle has announced the establishment of interview centers in order to ease the problem of having an interview for those students who would find it difficult to travel to Presque Isle. At these times their Admission Director, Dr. Joseph B. Chaplin, will be pleased to interview the following people: (1) Students who wish to discuss admission procedures and college programs and (2) Students who have submitted their applications to Aroostook State College and wish to fulfill their interview requirements.

The nearest centers with dates are as follows:

Feb. 7, 1969—Stephens High School, Rumford, Maine, (Guidance Office) 1:00 p. m.—4 p. m.

Feb. 14, 1969—Edward Little High School, Auburn, Maine (Guidance Office, 9:00 a. m.—12:00 noon; 1:30 p. m.—4:00 p. m.)

Juniors who are interested in taking the National Merit Scholarship

Examination should register at the guidance department. By taking this test a student is eligible for all scholarships awarded in the Merit

Scholarship Program and in special scholarship programs in business and industry. In order not to conflict with vacation plans, the date of the National Merit Test will be changed to Tuesday, Feb. 25, 1969. The Department of Education in Juniors who achieved a score of 50 or better on the verbal or math sections of the PSAT should consider taking the National Merit test. Parents and students may contact Mrs. Hotte for further details.

On Tuesday, Jan. 2, Mr. Glazier visited Bates College, Lewiston, in the interest of the Guidance Department. Several of our local students are interested in Bates. It is expected that they will visit the college on January 16 with their counselor, Mrs. Priscilla Hotte. They will be briefed by the college on the requirements for admission and will be guests of the college at the noon luncheon before returning home. Mr. Glazier is a graduate of Bates in the class of 1928.

During the Christmas recess Mr.

Glazier made personal contacts with a number of schools and colleges in Massachusetts and Florida in the interest of the Guidance services at Telstar. The schools included Tufts

College at Medford, Harvard University at Cambridge, Boston University, Katherine Gibbs, Chamberlain School, Wentworth Institute and Massachusetts, all in Boston. In Florida the schools contacted were the Junior College in Jacksonville, St. Joseph College at Jensen Beach, East Coast Commercial College, the Indian River Junior College, and the high school, all located in Ft. SKIDDING FOR SAFETY

—one of the devices used by the National Safety Council's Committee on Winter Driving Hazards during its annual winter test project to measure the stopping ability of various types of tires, chains and other equipment.

BRAKING DISTANCES

These findings point up the extreme hazard of driving on glare ice—showing that with regular tires it may take close to nine times as far to stop as on dry pavement. The Safe Winter Driving League cautions drivers that regardless of the type of traction device employed—even with tire chains—far slower than normal speeds are essential on icy pavements.

LET'S LOOK AT THE RECORDS

BY LINDA NORRIS

Popular and good-looking Michael Dees has a new album in Talk to Me, Baby that will please his young fans—and possibly even their parents.

Songs he does in his own inimitable style include the title song, Make Me Rainbows, Eleanor Rigby, For Once in My Life, A Beautiful Friendship, The Windmills of Your Mind, Nice 'n' Easy, The Gentle Rain, Somewhere, Sweet Memories and Leaves Are the Tears of Autumn.

Capitol doesn't only take care of the young set—they also remember moms and dads and they have come up with a great album which parents will treasure and their teenage children will find interesting proof that the folks were swingers in their day, too.

The album is Arlie Shaw Re-Creates His Great '38 Band . . . Need we say more? Well, we will . . . Included are such favorites of yesterday as Begin the Beguine, Lover Come Back to Me, Zigeuner, What Is This Thing Called Love? It Had to Be You, Softly, As in a Morning Sunrise, Nightmare, Back Bay Shuffle, Jungle Drums, Traffic Jam and Copenhagen . . . Head for the record shop Pronto—this is a rare treat for everyone.

While you're at it, ask for Jackie Gleason's latest—Irving Berlin's Music for Lovers. . . It's only the finest thing on wax in many years. . . Berlin songs are recreated in romantic fashion, including Lady of the Evening, A Pretty Girl Is Like a Melody, Let's Face the Music and Dance, All By Myself, The Song Is Ended, Say It Isn't So, Remember, Marie and How Deep Is the Ocean.

DED TO PRESENT NEW POLICY JANUARY 27

The Maine Department of Economic Development's new policy, "Development Through Conservation," will be presented to legislators, State and local officials and the public Monday, January 27, in Augusta.

More than 200 are expected to attend an information session, beginning at 2 p. m. in Room 105 of the State Office Building. Commissioner James K. Keefe said today.

The program will follow the lines of a similar presentation made last month in New York for the benefit of National news media, with United States Senator Edmund S. Muskie and Governor Kenneth M. Curtis sharing the spotlight.

The DED worked out its "Development Through Conservation" policy as one feature of Governor Curtis' "Maine Action Plan." It is an adaptation of the "sustained yield" policies pioneered in Maine by agriculture, forestry and other segments interested in natural resources.

DED is applying the same principles to its programs for industrial, recreational and community development, so there may be improvement in the environment, rather than degradation, wherever possible, Keefe explained.

The January 27 program will outline DED-sponsored legislation for reclamation of scarred mining lands and gas pollution prevention. Maine industry spokesmen will outline anti-pollution programs of such major activities as pulp and paper, cement and food processing.

SIX-SESSION COURSE TO DEAL IN MANAGEMENT BY OBJECTIVES

Management by Objectives will be the subject of a six-session course for area state and municipal government personnel which will be held Wednesday evenings, 7-9 p. m., beginning Jan. 15 at Central Maine Vocational Technical Institute and sponsored by the University of Maine's Bureau of Public Administration. Bernard Murphy, Assistant City Manager of Auburn, will serve as discussion leader for the course.

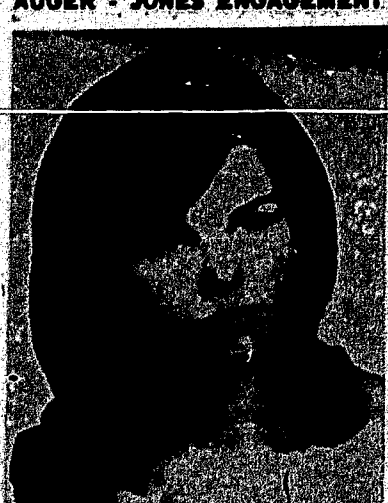

Management by Objectives is a concept of management which develops a program flowing from general identification of responsibility and measurements, through specific problem solving skills, and finally into specific goal planning. It is an industrial concept adapted to various areas of public management.

Clifford H. West, Jr., Career Development Administrator in the Bureau of Public Administration, said that certificates will be awarded at the end of the course to those who regularly attend. In addition, the Bureau of Public Administration will notify each participant's municipality or the State Department of Personnel (for State employees) of completion so that this information may become part of the permanent personnel records.

Funds acquired from Title I of the Higher Education Act of 1965 make it possible to offer this course, complete with text materials, for a small tuition fee of \$25.00.

The course sessions will be conducted Wednesday evenings from 7-9 p. m. at the Central Maine Vocational Technical Institute, 1250 Turner Street, Auburn beginning January 15. Registration materials may be obtained from the Bureau of Public Administration, 99 Western Avenue, Augusta, Maine, from Bernard Murphy, City Hall, Auburn, Maine, or at the Central Maine Vocational Technical Institute that evening.
